

How to find and integrate TwitterAds Pixel id using Conversios Shopify App?

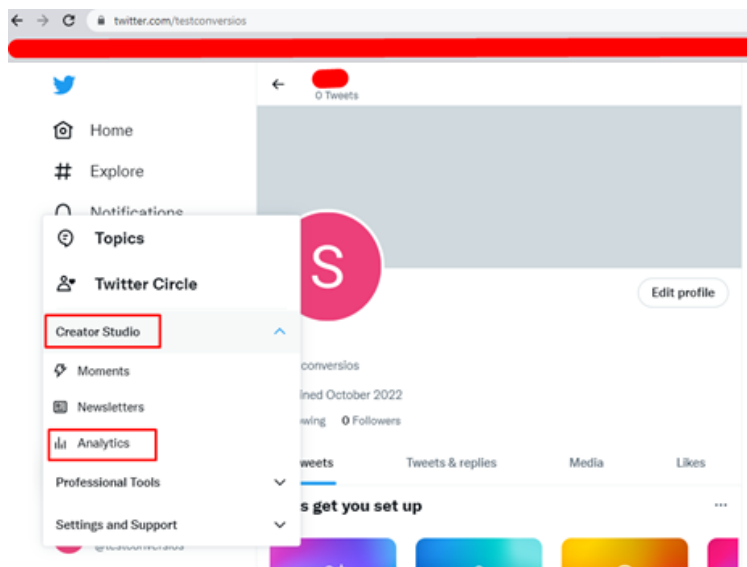

Step 1: First, you will have to create a Twitter account.

Log into that created account and click the more option as shown below.

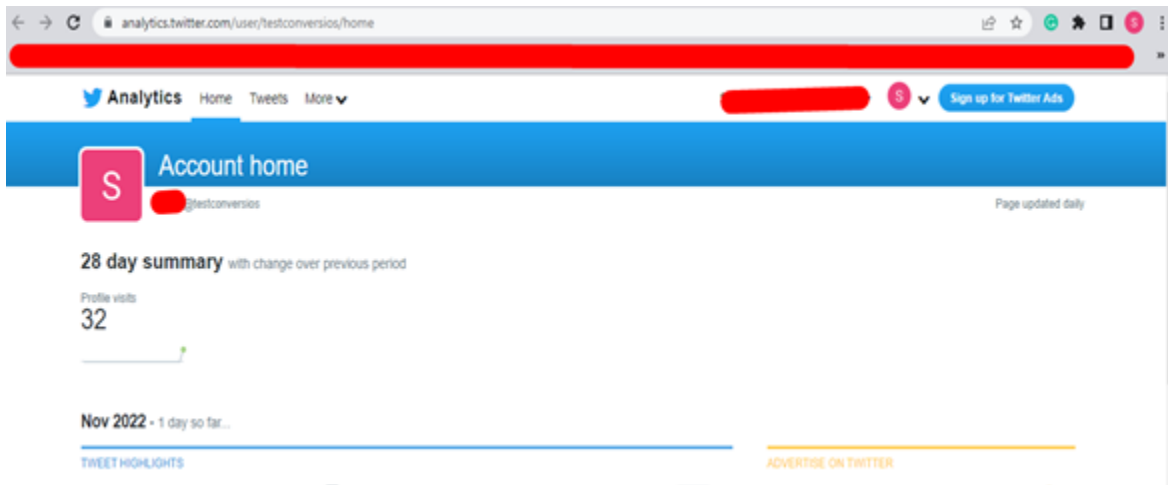

Step 2:

After clicking more please select Creator Studio followed by Analytics as shown in the below image.

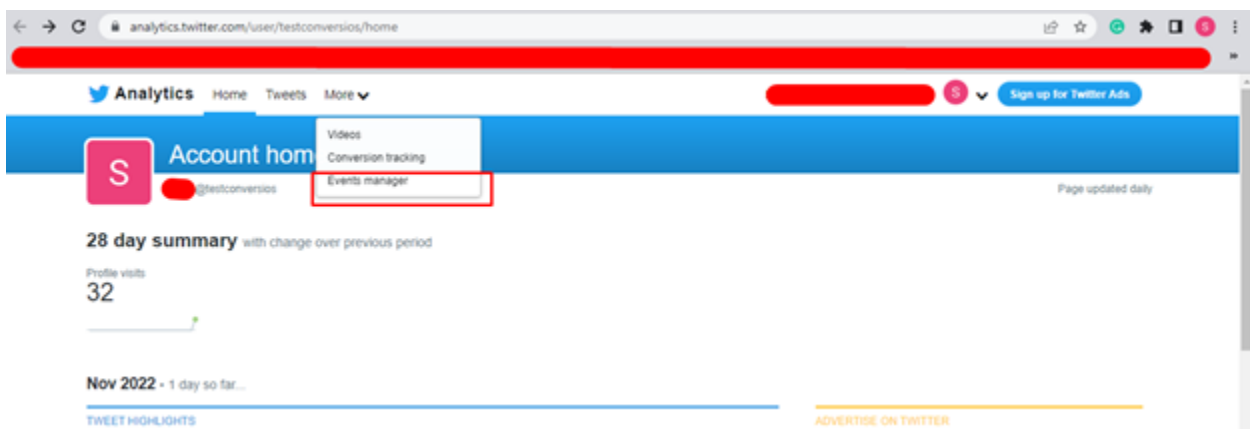

Step 3 :

Once you click Analytics you will be redirected to an Account Home page as shown below.

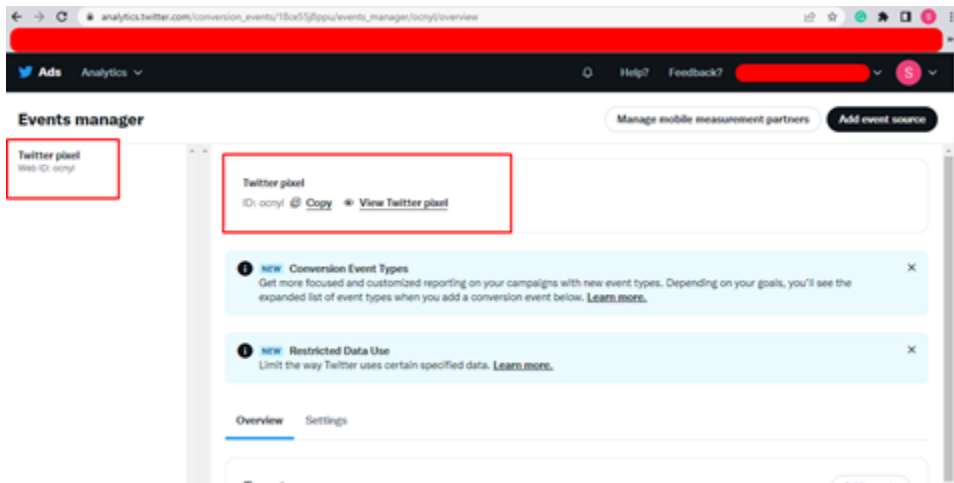

Step 4 :

Here you will have to select the more option under which you will need to select Events Manager as showcased in the below image.

After clicking the Events Manager, you will be able to find your Twitter Pixel Web ID as shown in the below image.

To Integrate the Twitter pixel ID into the Conversios app:

Just add the above pixel id in the Conversios app as shown below and click save in the bottom left corner of the page.
